

Guidance on how to personalize the Urban Wood Use Program brochure

The brochure has three areas that can be modified to reflect your agency/organization branding. This will require having the ability to open and work within an editable PDF file. If you have any questions on how to work with the PDF file, please reach out to info@dovetailinc.org.

1. Insert your logo in the top right corner of the first page to improve local recognition and to reflect endorsement of the content.

2. Insert your state-specific resources into the text box on the top left corner of the last page. If you are unable to edit directly in the text box, you should be able to add a text box in that area.

3. Insert your state-specific urban wood utilization contact into the text box on the top right corner of the last page. If you are unable to edit directly in the text box, you should be able to add a text box in that area.
