

New Heartbeat of the Forest

"à Refaire" (let's do it again)
We've been the 'Dovetail Team' for many years now. In fact, Dovetail celebrated a 20-year anniversary in 2023. To be honest, in recent years team members have been 'two-dimensional' - many of us never having met face-to-face despite the intense collaboration we share on projects.

Our respective offices are nestled into many corners of the world: the bays of California, the mountains of Vermont, the boreal forests of the northern Midwest, the hills of France. We meet monthly, virtually, separated by computer screens.

With each virtual meeting we 'dovetail' on projects via the insights and direction of President Katie and our board of directors. We have collaborated on topics related to trade policy, workforce needs, bioenergy, old-growth forests, carbon markets, regenerative agriculture, green building, and many other issues.

Bioenergy Update: A U.S. Outlook Infographic

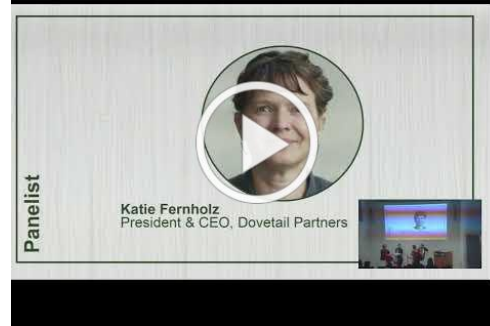

To celebrate [National Forest Products Week](#) (October 20 - 26) Dovetail created an infographic with key takeaways from our latest report, [Bioenergy Update: A U.S. Outlook](#).

National Forest Products Week recognizes the important role forests and forest products play in our everyday lives. It highlights the economic, environmental, and social benefits provided by forest products, such as lumber, paper, renewable energy, and recreational spaces. Celebrating this week raises awareness about the sustainable management of forests, the renewable nature of forest products, and the contributions of the forest industry to the economy and conservation efforts.

Kathryn Fernholz joined a panel titled "Building with Wood: Nature's Climate Solution." The panel took a deep dive into the sustainability of the whole wood products sector, from forestry and manufacturing to building design and policy, to explore the many ways wood products are a right-now solution to many of the environmental and social issues of the climate crises.

SAF Releases Summary Report of Mature and Old Growth Science Summit

After the *The Mature and Old Growth Science Summit*, SAF released a new report edited by Kathryn Fernholz of Dovetail Partners, and Tony Mazza, Interim Policy Director at SAF. The [Summary Report of the Mature and Old Growth Science Summit](#) summarizes the Summit's findings and reflects on topics such as climate-informed forestry, Indigenous knowledge and Tribal co-stewardship, and National Forest System planning and partnerships.

Welcome to the Team!
